## WHAT'S AT THE HEART OF MAHINDRA CRUZIO?

### mDi TECH 3.5 LITRE BS6 COMPLIANT ENGINE\*

This engine comprises of 1800 Bar Common Rail System and an Alternator Wastegate Turbocharger that together give you improved performance; by delivering a unique combination of higher power and higher fuel economy. A Hydraulic Lash Adjuster (HLA) means no more tappet setting every now and then. Same with the Auto Belt Tensioner which sets itself and requires no manual adjustments.

Then there's the gear driven Air Compressor which enhances engine reliability to a high degree. An Electronic Viscous Fan makes sure that the engine temperature is always within a safe range. A Higher Capacity Alternator makes sure higher electrical loads are not a problem. There's even an Aluminium Fywheel Housing just to make sure you get the most optimum aggregates and the best performance.

### mDi 2.5 LITRE BS6 COMPLIANT ENGINE

This engine comprises of 1600 Bar Common Rail System, an Alternator Wastegate Turbocharger and an Electronic EGR. They work together to give you improved performance in every aspect, even delivering higher mileage. An Electronic Viscous Fan makes sure that the engine temperature is always within a safe range. And a Higher Capacity Alternator makes sure higher electrical loads are not a problem.

### FUELSMART\* - MILEAGE AND POWER AT THE TOUCH OF A SWITCH.

Developed by Mahindra to give your business a competitive edge, the FuelSmart switches let you choose between superior mileage and optimum power as and when your business demands. Turn on the Heavy mode when your bus is full. And simply switch on the Light mode when running empty. Each mode squeezes the maximum efficiency from the mDi Tech FuelSmart engine.

\*Applicable for CRUZIO 32 and 40 seater buses only
