We, DHINDSA CARRIERS are happy to share our experience with you, all about the performance of our Mahindra BLAZO37 vehicle. We have total 108 no's of fleet size, from that Tanker Segment 1 no's BLAZO 37, 02 no's TRUXO 37, 01 no's of TRACO 40, and 07 no's TATA 4018

We are operating our fleet on both Tanker and MLO transportation for last 55 years. As per our experience with MAHINDRA BLAZO, we are getting better Fuel efficiency and pick up than other competitors.

Mahindra vehicles have 8-9 % of fuel advantage than to other competitor vehicles. Below table shows.

Fuel Average:

Parameters	Blazo 37
Fuel Average	4.7 kmpl
Load type	Only 554 Km on empty out of 1463 Km
Load In (Tons)	37 tons GVW
Load Carried	TANKER(H2SO4)

Vehicle Performance:

- The Comfort of the cabin is very good helps to cover more trips and better reach time.
- Mahindra having heavy aggregates and robust chassis for better driveability compare with other competitors.

I am here by satisfied with the Mahindra Sales & Service support. I use to recommend BLAZO range to fleet operators.
