To,

Mahindra and Mahindra Ltd

Truck and Bus Division, Jaipur

We M/s Atul Sharda owner of Shree Krishna Motors, Nimbahera, Rajasthan. We have total fleet 48 trucks mainly AL 4923 including 14No. of Mahindra Blazo 49 BS3 and BS4. We are operating this vehicle on Nimbahera - Indore or Nimbahera – Kotputali and Nimbahera – Gujarat Now this vehicle completed proximately 150,000km there is no major issue in vehicle. We are very happy with blazo performances like fuel efficiency and Ad blue consumption.

Following my Testimonial and observation on Mahindra trucks,

1. Best Fuel Efficiency – Blazo 49 BS4 FE is 3.75-3.90.kmpl one side load with 34 -36 Ton payload and Ad-blue consumption is 3 – 3.5%.

Model	Route	GVW	FE	Ad-Blue Consumption
Blazo49 BS4	Nimbahera - Kotputli	49	3.75-3.90kmpl	3-3.5%

2. Apart from study Engine, Gearbox and differential, aggregated like clutch plate, brake liner are also robust & performing well.
3. Mahindra service response is very good, I am getting consistent follow-up by NOW 24/7 team for any BD.
4. Driver are very happy with cabin comfort and less blind area and less turning circle and fuel FE.
5. Best invitation in Mahindra vehicle i.e.Multi-Mode System because driver easily increase and decrease engine power as per requirement by using multi-mode system and save more diesel as compare to other vehicle.
6. Very high engine power as compare to other vehicle like AL and TATA etc.
7. Power full breaking system working as a 10 bar and compressor also very power full required very less time for charging as compare to AL vehicle.

I will recommend other Transporters to buy Mahindra Trucks.

Thanks & Regards,

Atul Sharda
