Built with rugged aggregates, the Mahindra BLAZO X even lasts longer than other trucks. More than anything, it comes with unbeatable service and spares guarantees. Turn the pages and see how it gives you a winning edge in your business, no matter whatever you transport.

THE BLAZO X REVOLUTION

THE SMART WAY TO SAVE FUEL

Mahindra has advanced existing technology with its innovative FuelSmart switches that have increased fuel efficiency as well as mileage.

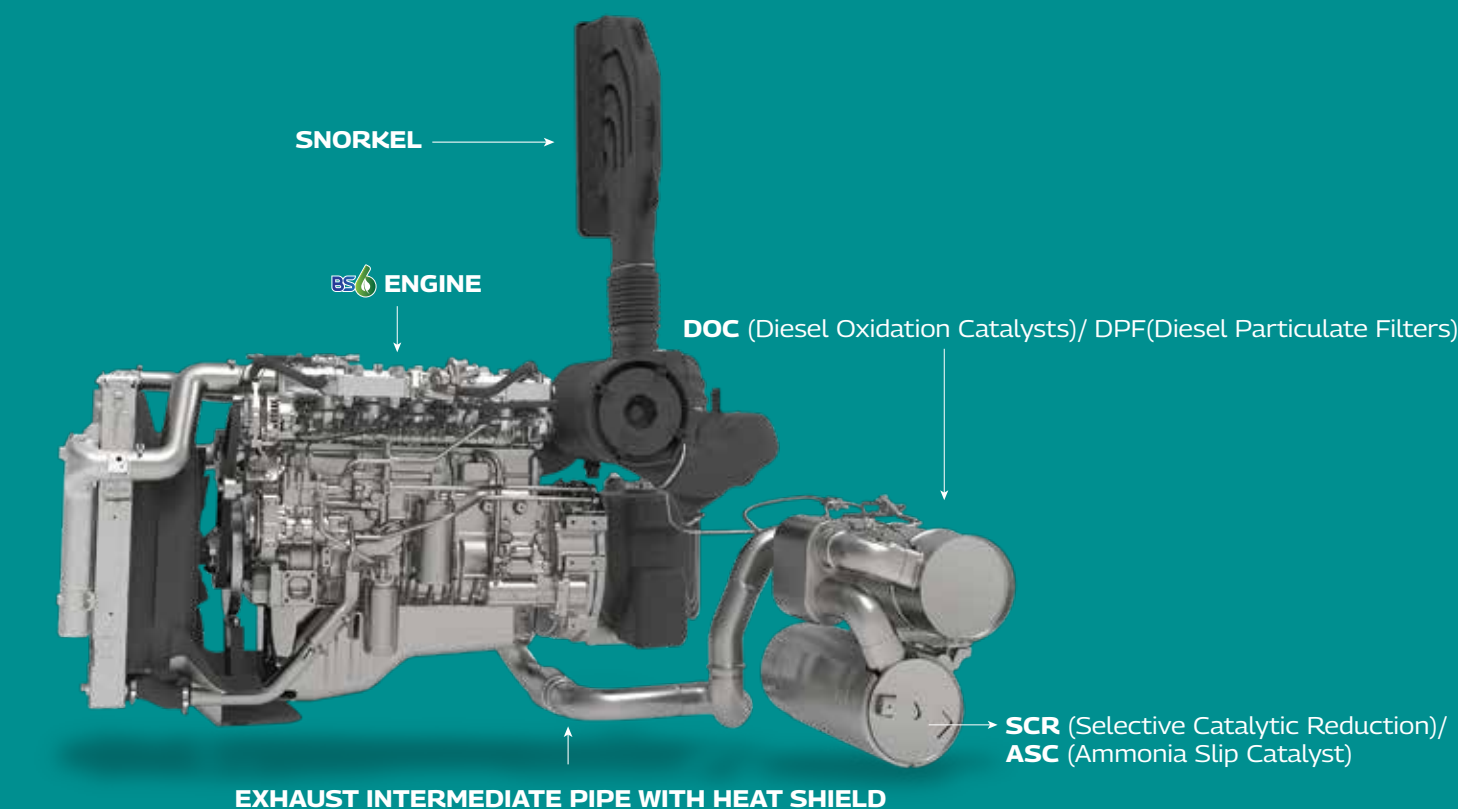

THE CRDe ADVANTAGE

Mahindra has always adopted a futuristic approach that is quite evident in their more than a decade of experience in CRDe engines across 9 countries. A cost-effective technology that doesn't compromise on performance or reliability, Mahindra's CRDe engines prevail in every terrain that India offers.

The Mahindra BLAZO X BS6 with mPOWER FuelSmart is tried and trusted with minimal changes and time again all while challenging and changing the face of the Indian transport industry.

MAHINDRA BS6 AFTER TREATMENT SYSTEM. LOWER AdBlue CONSUMPTION MEANS HIGHER EARNINGS.

The journey from BS4 to BS6 is not just about a technological change but to change people's mindset of doing business in the transport industry.

All of this enabled Mahindra Truck and Bus to make minimal changes to its vehicles because they were already BS6 ready at the BS4 stage with 90% of the parts being same. This benefits our customers as they don't need to worry about availability of spare parts and after sales services.

The Mahindra BLAZO X is not only built for profits but also for savings. Its AdBlue consumption is lower. That means fewer trips for refilling and lower AdBlue expenses. And what does this mean for your transport business? Increased earnings of course.

THE HEART OF SMART.

Mahindra's mPOWER FuelSmart engine with 7.2 litre displacement has a large heart with immense reserve capacity and the benefit of more than a decade of CRDe expertise. This engine, in combination with the multi-mode switches, delivers uncompromising performance. Giving mileage without short changing you when you need power, pickup or pulling ability. At the same time, this engine cuts down on emissions to give you cleaner, greener running for years to come.

MILEAGE AND POWER AT THE TOUCH OF A SWITCH.

FuelSmart is automotive technology at its best, at its simplest. Developed by Mahindra to give your business a competitive edge, the FuelSmart switches let you choose between superior mileage and unmatched power as and when your business demands.

Turn on the Heavy mode when carrying full loads. Use the Turbo mode when transporting big loads over steep inclines. Or simply switch on the Light mode when running without load. Each mode squeezes the maximum efficiency from the mPOWER FuelSmart engine and gives you unbeatable mileage. This is the FuelSmart Advantage.

GET THE FUELSMART ADVANTAGE WHATEVER YOU TRANSPORT.

Whether you're in the business of delivering cement, food grains, blocks of stone or frozen food, Mahindra has a truck for every transport application. There are even chassis models to let you shape the truck to your specific need. And no matter which truck you use, you will always get the FuelSmart Advantage.
