Sub: - Regarding BLAZO 25TT BS4, Tippers vehicles performance & Satisfaction Letter

Sir,

We SNR Group Jabalpur (Sihora) based truck Tippers fleet operating in Gitti/Soil application between Sihora to Jabalpur, having a Fleet strength of 150+vehicles. I have added 15 no's of Blazo25TT BS4, Tippers bogies suspensions to my fleet, all Blazo vehicles has covered 54895 kms recently and it is proving to be in all aspects when compared to competitor vehicles.

Earlier we used to have a fixed fleet mileage of 3.0 kmpl and now we have increased it to 3.27 kmpl which is 8.2% increase in fleet FE average contribution to 200 lts of fuel saving / vehicle for 6550 kms

Drivers are very much happy with the comfort level and safety. Latest technology like diligence and more space in cabin are very useful and help the driver to increase performance before even trip is completed,

I will surely recommend this product to other transporters and willing to purchase more vehicles from Mahindra in future.

Aggregate life of Mahindra vehicles as like Engine, Gear Box, Clutch, Differential & Tyres life are also robust and lesser failure than another competition vehicles.

In overall I am satisfied with the product and support provided and looking for a long term relationship with Mahindra & Mahindra truck & bus Ltd.

I wish Mahindra & Mahindra Trucks & Bus Ltd a great Success in Future.

For – SNR Group

Thanks & Regards

SHRI NARSINGH ROAD LI
