

9<sup>th</sup> May 2018

To,

Mahindra & Mahindra Ltd.  
Trucks & Bus Division.  
Cochin.

We are the first customer of Mahindra Navistar in Container segment at Cochin, initially we purchased 2 nos of MN25 vehicles in Sep'2011 and We have purchased 10 no's BLAZO 25 BS3 in Feb'2017.

Vehicles running under Container transportation from Kerala to Tamil Nadu & Karnataka.

With Fuel smart technology in place our drivers are achieving good Fuel economy in Mahindra Blazo vehicles and we are getting 10-12% of better fuel economy over my existing competition fleets. This benefits us with a savings of Rs 15000/- per vehicle per month.

The superior **cabin comfort & less gear shifting**, ensures less fatigue to driver and I can able to run the Blazo vehicles for more trips, and the high capacity engine ensure the **better uptime**.

We are fully satisfied with the performance of the Blazo range of vehicles and the service support from Mahindra & TVS is immaculate.

This is building more confidence on Mahindra Products and I will refer all my transporters about Mahindra Blazo truck range of vehicles.

Thanking You

**Brothers Transport**
