**Subject: - Performance feedback for Blazo25 Tipper BS4**

We, M/S VPS Earth Movers, are having 11 BLAZO25 Tippers, 15 AMW Tippers, 6 Tata Tippers, 1 Eicher Tipper and 3 Scania Tippers. These vehicles are using Limestone and Blue metal application its routes are Elachipalayam to Attur and Karikali mines.

Vehicles Performance results feedback as follows,

| Model                   | Blazo25Tipper BS4                           | AMW2528Tipper BS3             |
|-------------------------|---|-------------------------------|
| Vehicle Registration No | TN28BX3218                                  | TN34W5331                     |
| Start Km                | 2854.5                                      | 35834                         |
| End Km                  | 2874.9                                      | 35856                         |
| Distance                | 20.4  | 22                            |
| Fuel consumed           | 21Lits                                      | 30Lits                        |
| Fuel Average            | 0.97Kmpl                                    | 0.73Kmpl                      |
| Type of Operation       | Limestone -Mines                            | Limestone-Mines               |
| Adblue consumed         | 0.62Lits (2.94%)                            | -                             |
| Payload                 | 35.56T                                      | 34.29T                        |
| No of trips             | 5trips                                      | 5trips                        |
| Route                   | Karikali chettinadu mines                   | Karikali chettinadu mines     |
| Tyre condition          | Apollo - Nylon regular pattern              | Apollo - Nylon mining pattern |
| BLAZO Benefits          | Rs.500 and 6.3T payload than AMW for 5trips |                               |

The FUEL SMART Technology is giving better pulling power at gradient area with more loads.

We are happy with BLAZO25 vehicles performance in terms of Fluid economy, Pulling power and cabin comfort for better driving.

According to our operation we are saving of fuel cost Rs. 15000/- per month in a BLAZO25 than other competition.

We are fully satisfied with Performance of BLAZO25 and service support from Mahindra team. We will buy BLAZO25 truck in future as well as refer to prospective buyers.

Thanks,
