To,

The Manager

Mahindra & Mahindra Ltd

Truck & Bus Division

Sub: Mahindra Blazo BS4 Performance

I Ashok Kumar Mahanta is managing the fleet size of 32 trucks in our group. Out of these fleet I added 5 nos. of Torro 31. After seeing continue better performance of the Mahindra vehicle & team support recently I added 7nos. of Mahindra Blazo 25 BS4 vehicles in my fleet.

Our vehicles running in Over load condition in tipper segment and continuous monitoring from Mahindra Team.

I got the profit in case of Millage as well as the maintenance cost. Also the vehicle is doing more trip as compare to my others vehicles which is a great benefit for me.

The experience with BLAZO 25 T BS4 performance is very satisfactory. Our driver is very happy with vehicles performance, pickup & cabin comfort.

In my initial experience found that BLAZO 25 T is really good product & suitable for our application. I really very much happy with the Mahindra product & performance. Also the team work of the Mahindra sales & service team.

I will surely recommend this product to other transporters and also willing to purchase more vehicles from Mahindra & Mahindra in future.

Thanks & Regards,

Ashok Kumar Mahanta
