Mahindra and Mahindra Ltd,
Truck and Bus Division, Mumbai.

Sub – Performance of Mahindra BLAZO37 BS4

We, M/S Realajanta Carrying Services LLP, are operating the vehicles in Market load segment. We were having Trucks in which VECV 10 N's & Mahindra Blazo 37 10 N's. After seeing the vehicle performance, recently we have added 10 more units of Blazo37 BS4 Trucks from Mahindra.

We are getting very good support from Mahindra. Because of multi-mode system we are getting good mileage in Blazo37. We are getting Avg 3.5 Kmpl in BSL (Jamnagar to Bhiwandi to Rajkot to Ahmedabad to Jamnagar) with some vehicles even giving higher mileage.

Drivers are giving good feedback and happy to drive the vehicle, they give positive feedback over fuel mileage. Cabin comfort and multimode most useful for better millage. Also we are extremely happy with this Mahindra product performance.

For any issue regarding service, Mahindra team is supportive and prompt in resolving the issue. I am satisfied and having benefits from Mahindra truck, I would like to recommend Mahindra truck to other companies also.

Regards,

M/S Realajanta Carrying Services LLP
