To,

Mahindra & Mahindra Ltd,

Truck and Bus Division,

Dear Sir,

With immense pleasure I would like to state that we are satisfied customer of Mahindra Truck. We are having 70 no's of vehicles in our fleet out of which 16 are Mahindra vehicles in which 8 are BLAZO 37 & 3 are BLAZO 49. We recently purchased 5 more BLAZO 49 vehicles from Mahindra. In Mahindraservice issue looked upon very seriously, whenever any service repairs are required then the service support from Mahindra service team is very much appreciable. For which we are thankful to Mahindra Service team. Performance of BLAZO vehicles is satisfactory in the following areas.

- 1) From this vehicles we are getting around 7000 to 8000 Rs more profit per month than AL and TATA vehicles due to mileage as well as pay load advantage. Best part of the vehicle is multi-mode technology, we are making good profit with the help of this technology.
- 2) Our drivers are giving positive feedback on Mahindra vehicle for performance, cabin comfort, pickup and load carrying capacity compare to other vehicles.
- 3) They can cover more trips at a stretch due to better cabin comfort.
- 4) Service support from MTBD is very good.
- 5) Vehicles are continuously monitoring from MTBD executives to deliver the best fuel average.

I will surely recommend this vehicle to other transporter brothers.

Thanking You,

*No. 12. Singhal*
