Mahindra and Mahindra Ltd,

Ahmedabad.

We, Shree Anjani Roadways have a total fleet of 35 trucks in our group including Leyland & TATA vehicles.

Apart from 23 trucks we have 12 nos. of Blazo 37 Multimode Mahindra vehicle for sand transportation business.

Observation of Blazo 37 Multimode in the route of Halvad-Nimrana-Dudhua-Pali (Kms: 2045) Blazo 37 Multimode has consumed 580.54 ltrs (KMPL: 3.52 when it is in both side loaded).

The experience with Blazo 37 Multimode performance is very satisfactory and our drivers are very happy with product performance, pick up, better cabin facility and service due to which our TAT increased & we are getting better fuel economy.

The engine power is excellent and I am able to carry more payloads also in the vehicle and reach the destination before expected time.

As per my experience, Blazo 37 Multimode is really good product and suitable for sand/MLO transportation application.

I will surely recommend this product to other transporters also.

With Regards,

Mr. Ompal Bhai,

FOR, SHREE ANJANI ROADWAYS
