Mahindra and Mahindra Ltd,

Ahmadabad.

We, RajmotiRoadmovers have a total fleet of 200+ trucks in our group mainly with TATA and Mahindra vehicles.

Out of 200+ trucks we having 45 no. of MahindraBLAZO vehiclesin our Bulker & road construction application.

Initially, I have given an order of 40 no's BLAZO 37 for Bulker application after many market research on Mahindra Product & Service feedback from market especiallyfrom Rajkot region.

I am operating Mahindra BLAZO 37 in bulker application from Kodinar-Ahmedabad-Jamnagar-Kodinar& Getting 4.5 KMPL mileage for 1150Km trip in which vehicle runs 400 Km empty between Ahmedabad-Jamnagar.

After getting confidence over product performance & tyre life of BLAZO 37, we have placed order of 5 Nos BLAZO 25 tipper afterwards which are running in road construction application.

The decision was really tough for BS IV Tipper with a hype in market about SCR & EGR technology for achieving BS IV regulations, but finally I am very much satisfied with my decision.

Vehicle Model	Nos of vehicle	Max Running	FE Getting	Tyre Life
BLAZO 37	40	80000	4.5 KMPL(Load-Kodinar- Gandhinagar -Empty-Jamnagar-Load-Kodinar)	10nos BLAZO 37 crossed 60K km and still tyre life of 25K is there (5mm depth)

The experience withMAHINDRA BLAZO PRODUCT performance is very satisfactory and our drivers very happy with product performance, pick up, better cabin features with Safety& better fuel economy.

I must say that the kind of after sales support & customer connect by Mahindra team with customer is really great & I am strongly recommending to my fellow transporters to go for Technological product like BLAZO.

With Regards,

RajmotiRoadmovers,

Kodinar.
