**Subject – Performance of Mahindra Blazo 37 BSIV**

We, Shambhu Roadways, Gandhidham are involved in edible transportation from last 25 years. We are having a fleet of 130 vehicles with a fleet mix of 10 nos Benz, 5nos AL, 30 nos Mahindra Blazo 49/37 and 1 no Eicher and Rest are of tata. Which are running in all over india.

The performance of Mahindra Blazo 37 BSIV is very satisfactory, they are giving good fluid economy, driving comfort and better turnaround time.

We are running these vehicles in tanker application in one side load one side empty from Gandhidham to Dewas, round trip distance 1553.7 KM and we are doing 5 trips monthly. Our Mahindra vehicles are consuming 363.96Ltr Diesel means 4.27 KMPL and Ad Blue 4Ltr means 1% of Diesel consumption.

Still we expect that we may have a better Mileage performance result from the result we are getting as of now.

In our regular operation we have received a very good break down assistance and service support from Mahindra Team.

We are highly satisfied with Mahindra Vehicles and we appreciate the service support and product performance of Mahindra Blazo 37 BS IV. In future we wish to have more Mahindra Vehicles in my next purchase plan.

Thanking You,

Shambhu Roadways.  
Gandhidham.  
9825577220.
